

Introduction to Water Treatment

Course Overview

This course is designed to provide a foundational look at Water Treatment processes and methods. Course material consists of reading assignments, video lectures, review questions, study problems and lesson quizzes.

Course completion requires that the student successfully complete each component of each individual lesson. Review questions and written assignments must be submitted either online or uploaded in a Word document for the professor's review. Lesson quizzes have a minimum passing score of 70%.

Upon successful completion of the course requirements, students will receive a certificate of completion for 4.3 CEUs (43 contact hours) for the *Introduction to Water Treatment* course, which is applicable toward a Certificate in Water Treatment Technology from American Water College.

Required Texts

Textbook: Water Treatment Operator Training Handbook

Edition: Third Edition

Author: Nicholas Pizzi and William C. Lauer
